

Up To
\$9000

TRIPLE-FUNCTION Rebate

That's right... just purchase a Tranquility Water-to-Water and Packaged unit combination up to 7.5 tons total in place of a competitor's triple-function system and receive a \$750 rebate! The rebate will be \$900 if the total capacity is 8 tons or more! Simply scroll down to access the rebate form.

Act soon, because this is a limited-time offer.

*On Tranquility Packaged
Unit and Water-to-Water
Combo Purchases!*

Tranquility Packaged Series

Available with single or two-stage compressor, the Tranquility Packaged Series was designed for both new construction and retrofit applications. The narrow cabinet was designed for easy movement through doorways, crawl spaces, and attic access. **The Tranquility 27® Series** utilizes EarthPure® HFC-410A refrigerant along with advanced scroll compressor technology and microprocessor controls allow the Tranquility 27® to operate at the most efficient level for all weather conditions.

Tranquility Water-to-Water Series

The TMW Water-to-Water series offers a wide range of units for most any installation with an extended range refrigerant circuit, capable of ground loop (geothermal). The TMW Series can be used for radiant floor heating, snow/ice melt, chilled water for fan coils, potable hot water generation, hot/chilled water for make-up air, and many other types of HVAC applications. **The THW Water-to-Water Series** offers an extended range refrigeration circuit, capable of ground loop (geothermal) applications. Unique application-specific controls make the THW Series ideal for hydronic heating and domestic hot water generation. The heating-only refrigeration circuit is optimized for high water temperatures, heating efficiencies, and capacities.
